Did You Know: View and Approve Student Book Reviews

At the end of every book in myON, students are prompted to write a short book review. Did you know that teachers need to approve these reviews before they are published within your school building?

Supporting At-Home Reading with Families

Parental involvement in a child's literacy practices is a more powerful force than other family background variables, such as social class, family size, and level of parental education.

Here five things families should know about their child's reading practice:

1. **Read Every Day:** Time spent reading directly impacts student achievement.
2. **Let Kids Choose Books:** Kids read more when they get to pick out their own books.
3. **Read Together:** Reading TO and WITH your child is a powerful motivator.
4. **Listen To Read-Alouds:** Using audio texts can improve comprehension, build vocabulary, and much more.
5. **Talk About Reading Growth:** Ask your child how their reading level is improving.

“Children are made readers on the laps of their parents.”
Emily Buchwald (Author)
