

iSummer: Learning On-The-Go

Access to individualized educational digital tools via personal devices and partnerships with libraries and other community-based organizations with internet connectivity

- For the fourth year in a row, the District will provide links to online applications, tools, and games that students can access 24/7, via the Student Portal, from anyplace with internet connectivity.
- These resources will allow students in grades PreK-12 to practice and apply what they learned during the school year, and to explore new concepts.
- Content will include district-licensed applications, as well as new resources made available exclusively for Summer 2015.

Give your child all the help he or she needs to succeed!
