

WELCOME TO ALGEBRA NATION 2.0

Quick Start Guide

- 1) To access “Algebra Nation 2.0” login to the student/teacher portal.*

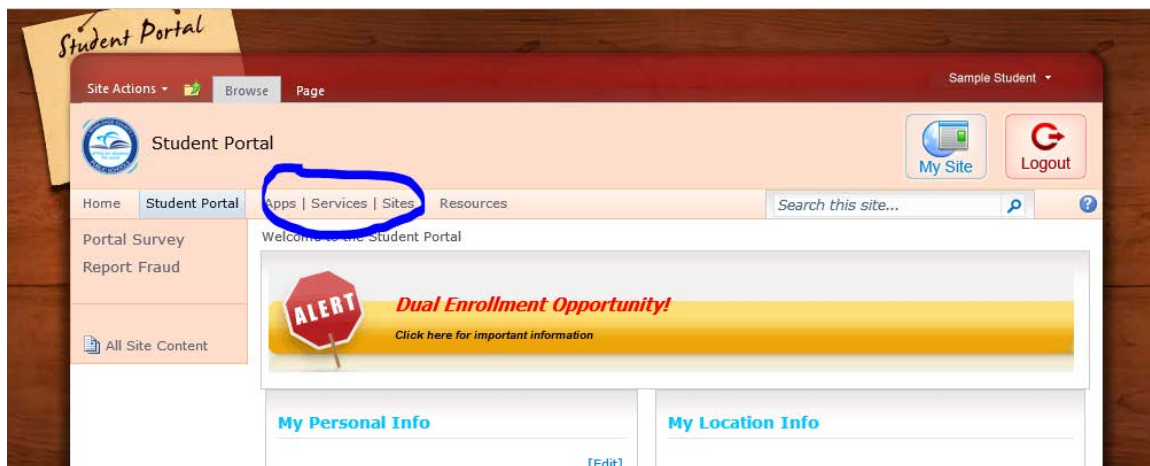

* We suggest you use Google Chrome or Firefox to access Algebra Nation. Algebra Nation works with Internet Explorer 9.0 and 10.0, but Google Chrome and Firefox is much faster and more stable.

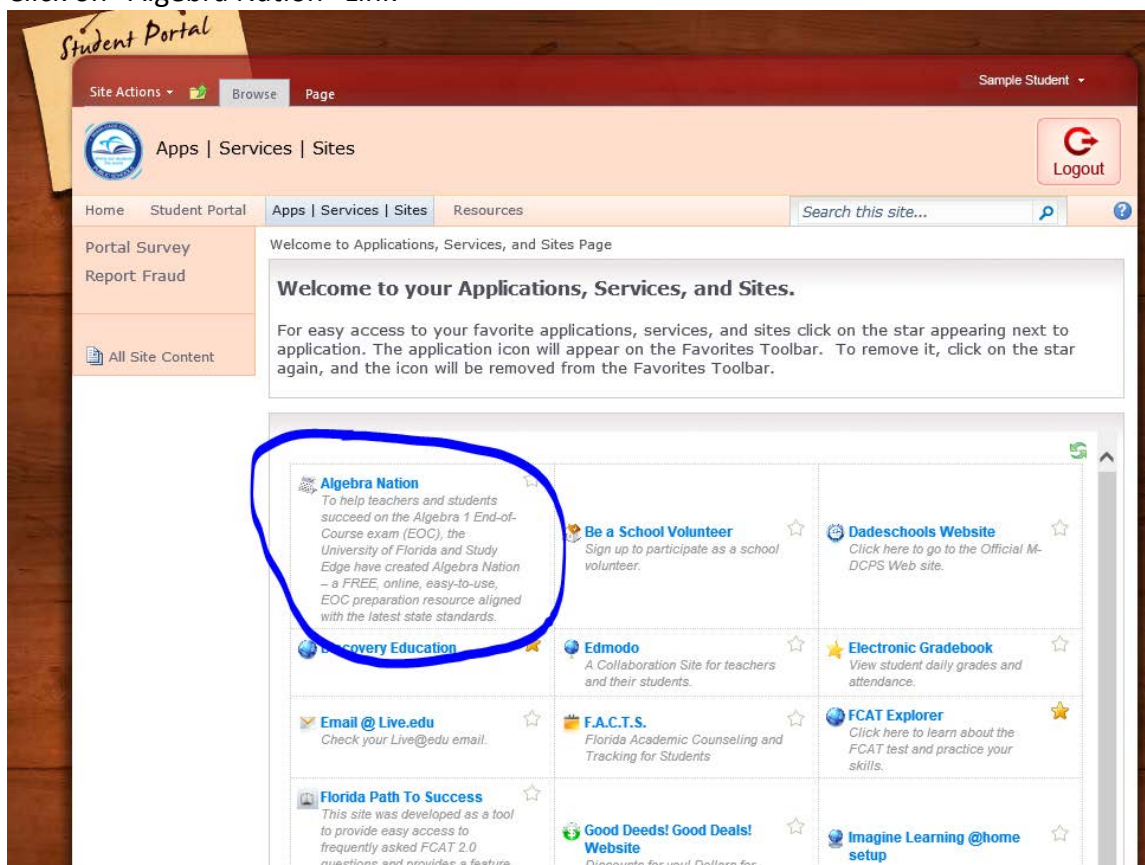

The login form features the Algebra Nation logo in the top left corner. It includes a 'Username:' label followed by a text input field, a 'Password:' label followed by a text input field, and a 'Forgot' link to the left of the password field. Below the password field is a blue 'LOGIN' button. At the bottom, there are two links: 'Username/Password?' and 'Create Account'.

Sign in with your regular portal username and password. Your students will sign in with their regular portal username(s) and password(s) as well.

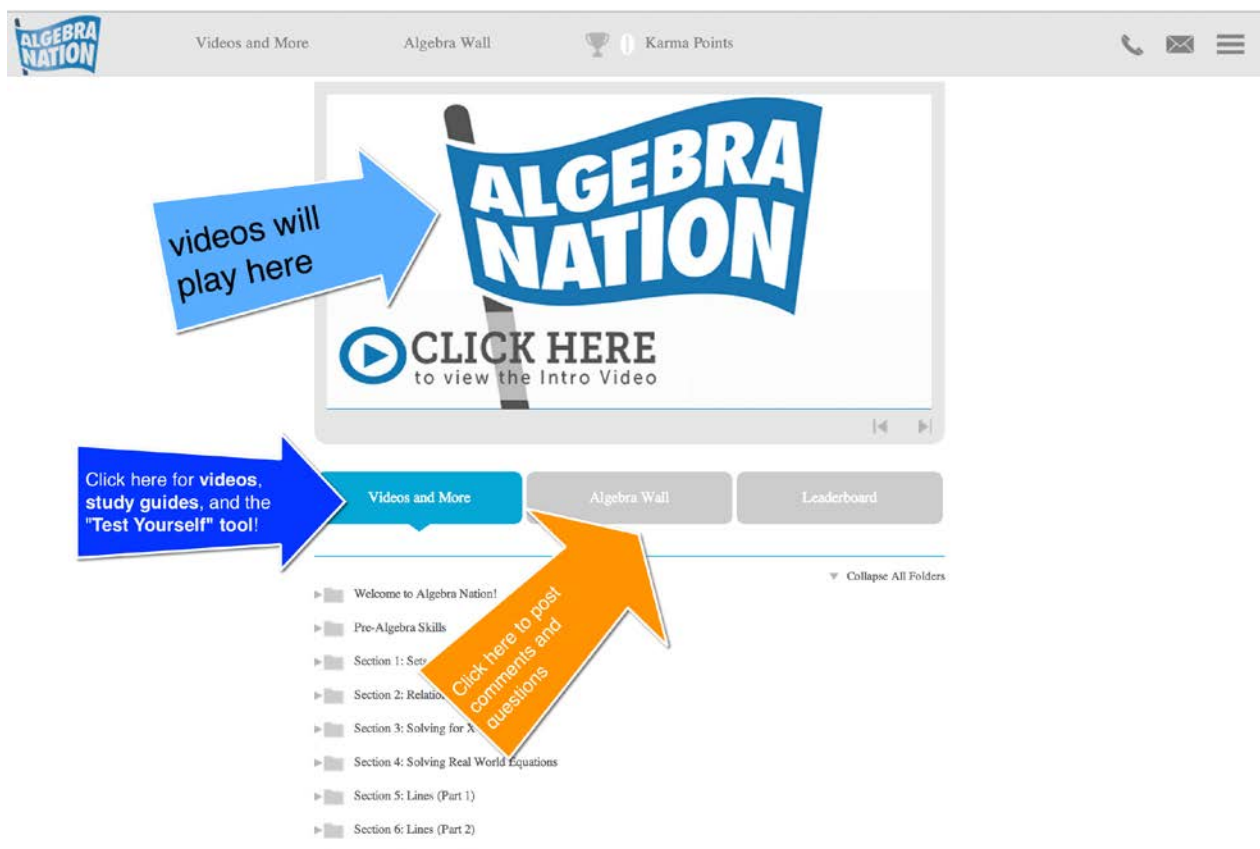

- 2) Click on “Apps | Services | Sites” Tab

3) Click on "Algebra Nation" Link

4) You will know you were successful when you see this page:

Through Algebra Nation, you and your students will be able to access **ALL** the following resources both inside and outside the classroom:

- **Instructional Videos**
 - **Study Guides** that correlate with every video, so students can follow along as they watch each video.
 - **“Test Yourself!” Practice Tool**, where students can complete practice problems on a platform that looks and feels similar to the Algebra EOC. The “Test Yourself” tool randomizes questions so students can maximize practice!
 - **Extra Practice Problems** so students can have even more practice. These problems are accompanied by video solutions, so students can see the breakdown of each problem.
 - **Algebra Nation Wall** where students can get all their algebra questions answered by Study Experts (tutors) and teachers.
 - **Teacher Reports** so teachers can pull reports of their students’ video views, “Test Yourself!” results, and wall posts. Teachers **DO NOT** need to upload their own rosters; it will already be done and updated for you! *(Coming October 21st, as students need to be active on the app before reports can be produced.)*
 - **Leaderboard** shows the karma points ranking for students in Florida. Students earn karma points for helping other students, and can earn real prizes for their progress on Algebra Nation (including iPad Mini’s!)
-
- Miami-Dade teachers and students can always access Algebra Nation by going through the Portal and clicking on the Algebra Nation icon.
 - Algebra Nation is also available through Facebook and on iPhone and Android phones
 - Search “Algebra Nation” to download the latest app!
