

## 2021-2022 SCHOOL CLIMATE SURVEYS

The School Climate Surveys are an integral part of the district's efforts to promote school improvement and educational accountability. School Climate Surveys of parents, students, and staff have been annually administered in the Miami-Dade County Public School district since the early 1990s. The purpose of these surveys is to gather information regarding what these groups think about the school and their perceptions concerning how the school can be improved.

All School Climate Surveys Can be Found at: <https://drs2.dadeschools.net/>
