i-Ready

Technical Specifications: Miami-Dade County

Welcome to i-Ready! The tech support teams at i-Ready and in Miami-Dade have been working diligently together to ensure systems are in place for you to begin using i-Ready K-8 Diagnostic & Instruction. Please refer to the specifications below to check that your school is appropriately setup for running the i-Ready web-based program.

Hardware & Software Requirements

- **Desktop & Laptop Computers** – Computers must meet the following minimum requirements. If you are not sure you have computers capable of running i-Ready or anticipate hardware or software-related program issues, enter a HEAT ticket for the school technicians.

Windows-based Computers:

- o Intel Pentium 4 2.33GHz processor (1.6 GHz or faster for netbooks); At least 1 GB of memory, 128 MB video RAM, sound card & headphones
- o Windows XP, Vista, 7 and 8 (Metro not supported)

Apple Computers:

- o Intel Core Duo 1.83 GHz or faster processor; At least 1 GB of memory, 128 MB video RAM, sound card & headphones
- o OS X 10.6 or later
- o Note: Google Chrome OS (v27) is also supported.

- **Adobe Flash** – Please check that the version of Adobe Flash running on all computers is compatible with i-Ready (versions 10.2 or later).

Confirm computers are functioning properly by running our free system-check
www.i-ready.com/support/systemcheck

- **Headphones are REQUIRED for i-Ready Diagnostic & Instruction**. Prior to the test date, be sure to confirm availability of headphones and check that all headsets and audio are functioning properly. ***Students will NOT be able to take the diagnostic or use instruction without headphones.***

To login to i-Ready: Go to https://login.i-ready.com

You will want to put a bookmark or shortcut on all student and teacher computers.
